- Miscellaneous gasket, quantity 1

This gasket set is supplied by one of the UK's best-known gasket manufacturer's who are ISO9002 quality assured. This same company is also an approved supplier to Rolls Royce Aerospace and has to meet the most stringent of quality requirements. It is recommended that when replacing the head gasket, that the Lotus/Rover workshop manual should be followed to ensure the correct installation.

Instructions are enclosed within the kit to provide the correct tightening sequence and torque settings. For this procedure to be carried out correctly, it is necessary to use a torque angle gauge. Steel cylinder head dowels are available separately as a superior replacement for the original plastic component.
