

The Elan Factory - Product Data Sheet

Lotus chassis plate, Lotus Components

During production Lotus used a simple numbering system to identify all the different types of cars that were manufactured. The chassis plate illustrated below was fitted to the Lotus Seven series 2 and Lotus Elite.

This plate has been remanufactured so that it is a faithful reproduction of the original item. These plates are very high quality and offer Lotus owners the opportunity to replace a worn or damaged plate whilst restoring their vehicle.

Material – High tensile aluminium sheet

Width – 100 mm

Height – 75 mm

Weight – 17 grams approximately

Fixing holes – pre-drilled 3 mm diameter

PLEASE NOTE CAREFULLY. These plates are supplied with the Unit and Engine Number entries blank. Therefore it is the customer's responsibility to ensure the correct information is inscribed on to the plate to reflect the original vehicle details.

The Elan Factory cannot be held responsible for any errors, omission or mistakes when the original vehicle details are transferred to the new plate.

For further information regarding chassis plates, performance products or genuine Lotus products, please phone The Elan Factory on (613) 9761-1903 or fax on (613) 9739-8944. Alternatively you can write to The Elan Factory at 5 Marong Court, Boronia Heights 3155, Melbourne, Australia or e-mail at elanfactory@optusnet.com.au
