

The Elan Factory - Information Sheet

A Guide to Sealants For the Assembly of Lotus Engines

The document you seek has now been relocated to our new and exciting website. This document regarding sealants for Lotus engines is located at the following temporary URL

www.lotusmarques.com/lm_test02/

Please note you will have to register at the new web site to be able to view this document

The new web site is a fully functional BETA test site where you can participate in the design and content

We are looking for your valuable input to assist in the final design phase so your constructive comments are welcome

Once the web site design has been finalised, then the URL will revert to the parent domain name

www.lotusmarques.com/

Please book mark this URL for the near future so that you may easily find the correct site

NOTE CAREFULLY – please use the left hand panel ONLY to register, login and logout during visits
